Company: LOWA Sportschuhe GmbH, Hauptstr. 19, 85305 Jetzendorf, Germany

Date: 27th June 2012, Jetzendorf

Outdoor

Red Eagle Lacing

430111 3030 red/grey

Sizes: UK 4 - 12, 13

Category: Alpine/Climbing

Support on the tiniest of holds

Built on a narrow last, **Red Eagle Lacing** was conceived for alpine performance and top performance climbers. The upper of this lace-up climbing shoe is tightly stretched during production over a special last. The rigid midsole allows climbing on the smallest of holds and the soft Vibram® XS-Grip outsole offers the best "stick". The microfibre upper was made with an "Air System" Perforation to increase shoe breathability and ventilation. The anti-bacterial fabric lining reduces unpleasant odour.

Weight per pair (UK 8): 440 g

Red Eagle Velcro

430115 3099 red/black

Sizes: UK 4 - 12, 13

Category: Alpine/Climbing

Top-class for bouldering

LOWA developed the **Red Eagle Velcro** style especially for alpine performance and top performance climbers who also like to boulder or practice their sport in a gym. Thanks to a microfibre upper and the "Air System" Perforation, your feet will never overheat in the shoes, even on sunny days or in the gym. Plus the fabric lining reduces unpleasant odour. Also manufactured by tightly pre-stretching over the last, this style has a medium-stiff midsole, as well as a Vibram® XS-Grip outsole completes the package offered by this top shoe.

Weight per pair (UK 8): 440 g

Falco Lacing, 430110 0740 green

Falco Velcro, 430100 6040 blue/green

Sizes: Falco Lacing UK 4 - 13, Falco Velcro UK 3 - 13

Category: Alpine/Climbing

A powerful, yet comfortable duo

Comfort-oriented performance climbers are the target group for the **Falco Lacing** and its companion style **Falco Velcro**, both with microfibre uppers. Available either as a lace-up or Velcro closure style, this climbing shoe with a wide, comfortable last has an anti-bacterial, odour-inhibiting fabric lining, an LC Super Grip outsole, as well as a medium-stiff midsole.

Falco Lacing, Weight per pair (UK 8): 480 g

Falco Velcro, Weight per pair (UK 8): 440 g

Falco Rental

430113 7030 green/grey

Sizes: UK 4 - 12, 13

Category: Alpine/Climbing

Especially for rentals

With the **Falco Rental**, LOWA offers a style specially developed for rentals with a quick-lacing system and a wide, comfortable last. The durable microfibre upper offers an anti-bacterial fabric lining to inhibit odours. The **Falco Rental** is equipped with an LC Super Grip outsole and a stiff midsole. For the most effective use at rental, LOWA made the shoe with abrasion-resistant rubber on the front and sides, as well as with a resoleable two-layer outsole. The size is clearly visible on the exterior, and a clip system makes it easier to keep pairs together.

Weight per pair (UK 8): 520 g

Pirol Kids

440110 0220 orange

Sizes: EU 27 - 36

Category: Alpine/Climbing

Children up on the wall

Children find climbing fascinating. LOWA has thus developed climbing shoes adaptable for kids even for the smallest of them. Thanks to its adjustable length, the style **Pirol Kids** can grow along with them. The upper is made of breathable microfibre material with perforations so the feet are well-ventilated. The anti-bacterial fabric lining inhibits unpleasant odours, and the soft, flexible outsole offers great "stick" on the rock without forcing growing feet out of shape. Weight per pair (EU 32): 210 g
